Future Mirear | Under Construction | Miraflores

About

Designed by architect Frederico Valsassina, the project stands out for its contemporary lines, expansive glass surfaces, and generous outdoor spaces, which highlight natural light and views of Monsanto and the Tagus River.

The apartments were designed to provide a functional and comfortable living experience, complemented by a range of amenities that promote well-being and quality of life. The development features a rooftop pool, a fully equipped gym, a multipurpose room, a playground, and carefully designed common areas for socializing and leisure. It also features private parking, storage units, bicycle parking, and pre-wiring for electric vehicle charging.

Located between Monsanto Forest Park and the banks of the Tagus River, Future Mirear benefits from a strategic location that combines nature, mobility, and urban convenience. Its proximity to the Algés Market, shopping centers, services, schools, and recreational areas makes daily life easier, while quick access to the A5, CRIL, CREL, and the public transportation network ensures efficient connections to Lisbon, Cascais, and the entire metropolitan area.

Sustainability is one of the pillars of the project, reflected in the buildings' energy efficiency, the use of highly recyclable materials, the integration of solar panels, and solutions that promote more responsible resource management. A development designed for the future, where architecture, innovation, and quality of life come together in perfect harmony.

Caracteristics

Status - Under Construction
Types - T1 to T5
Areas - 53sqm to 214sqm
Year of Construction - 2029

Amenities

Pre-installation of electric vehicle charging stations
Rooftop
Fully equipped kitchen
Swimming pool
Parking
Collection
Gym
Elevator
Air Conditioning

Energy efficiency

Energy Rating is an index of thermal performance of a building, indicating the levels of heating and cooling in winter and summer buildings that achieve energy rating A or B are more comfortable to live in and have lower energy bills.
