Casas de Santo Amaro | New | Alcântara

About

With private gross floor areas ranging from 360 m² to 410 m², the homes are spread over four floors and feature private gardens, open-air terraces, a jacuzzi, and parking for three cars. The interiors were designed to provide functionality and well-being, with fully equipped kitchens, air conditioning, and high-quality finishes.

The architecture draws inspiration from Piet Mondrian's iconic compositions, reinterpreting the balance between form, color, and proportion in a contemporary yet timeless style. The result is a harmonious ensemble where aesthetic expression blends with functionality, creating spaces designed to endure and adapt to different lifestyles.

With independent access via a private pedestrian path, each villa asserts its own identity. The careful selection of materials—such as Lioz marble, high-strength micro-concrete, and bronze-toned lacquered elements—reinforces the project's integration into Lisbon's urban landscape.

The Casas de Santo Amaro represent a unique opportunity to live in a one-o--a-kind, completed development where architecture, comfort, and exclusivity come together in perfect harmony.

Caracteristics

Status - New
Types - Homes
Types - T5
Areas - 360 m² to 410 m²
Year of Construction - 2025

Amenities

Fully equipped kitchen
Garage
Private garden
Terrace
Elevator
Air Conditioning
Balcony

Energy efficiency

Energy Rating is an index of thermal performance of a building, indicating the levels of heating and cooling in winter and summer buildings that achieve energy rating A or B are more comfortable to live in and have lower energy bills.
